

**Announcement**

# 13<sup>th</sup> SOPHIA Workshop PV-Module Reliability

**April 20<sup>th</sup> – 21<sup>st</sup> 2023**  
**Ispra, Italy**

**OBJECTIVES:**

**REQUIREMENTS OF NEW AND UPCOMING PV APPLICATIONS FOR MATERIAL SELECTION AND RELIABILITY ASSESSMENT**

The Joint Research Center (JRC) of the European Commission (Italy) and the Fraunhofer Institute for Solar Energy Systems ISE (Germany) are proud to invite you to the 2023 SOPHIA Workshop 'PV-Module Reliability' in Ispra, Italy. This workshop is planned as in person meeting and will feature reliability aspects and new technologies of innovative PV, combined testing and standardization as well as possibilities offered by perovskite.

The main topics of the upcoming workshop will be:

- **Combined Tests**
- **Reliability and new Technologies**
- **Perovskite and global Applications**

For more information please visit the workshop's website:

**[www.pv-reliability.com](http://www.pv-reliability.com)**

**Organizer**  
Fraunhofer ISE, Dr. Karl-Anders Weiß

**Host**  
JRC, Dr. Tony Sample
